Responded to several issues pertaining to Health & Dental concerns and worked with Krista Harris, as well as C&C Insurance to resolve and correct current and outstanding concerns. Connected with the Geodesy and Geomatics Engineering Graduate Student Society, who invited me to attend their society meeting where I had the opportunity not just to meet the society's executive but the majority of the graduate students in their program. Was requested by grad students to sit in a meeting in early December, with the Interim Director of Libraries to discuss the allocation and usage cost of graduate study carrel's. Attended Executive and Council meetings as planned.
