Events Hosted:

- Was present at the Orientation week events to ensure all activities went well and as scheduled.

Projects and Goals:

- Orientation Week was successful and the turnout was fantastic. Rough estimates had the attendance at each BBQ around 200-280 most days. The evening events were well attended as well and it looked like everyone had a great time.
- The budget for Orientation week was met successfully. The faculty donations were very generous and we were able to have some great prizes this year.
- With the completion of Orientation Week 2015, now I would like to brainstorm ideas for future events, to ensure the Grad House remains a location for Grad Students to get together and have fun. I would like to meet with others to come up with ideas and find volunteers.
